83th Annual Meeting of the German Geophysical Society in Bremen, March, 5th to 9th, 2023

Invitation for Exhibitors and Sponsors

From March, 5th to 9th, we will organize the annual meeting of the **German Geophysical Society** in Bremen - **in presence!** The meeting provides various opportunities **to exchange, learn from each other, or to present new technical developments and methodological advances.** We expect more than 400 participants, many of them students or early career scientists, who are looking for jobs and ideas for research and applications.

We would like to invite You, Your company or Your institute to join us! We can offer opportunities on this conferences to be present at the **company exhibition**, to participate in our **career center**, to give a **short presentation** of your work and products (5 min) and of course be part of the scientific community in talks, posters and the associated program.

There are various small or extended options for sponsoring:

Exhibition for Companies, Institutes, Organisations - Premium Packages:

Gold (2700 €) : logo on webpage, full page advertisement in the conference volume (pdf), company exhibition (12 m²), logo in the program overview (print), logo on conference bag (single color), 3 conference fees, 3 conference dinners.

Silver (1600 €) : logo on webpage, half page advertisement in the conference volume (pdf), company exhibition (6 m²), logo in the program overview (print), logo on conference bag (single color), 2 conference fees, 2 conference dinners

Bronze (800 €) : logo on webpage, quarter page advertisement in the conference volume (pdf), company exhibition (3 m²), 1 conference fee, 1 conference dinner

Further/additional sponsoring options:

advertisement in conference volume (pdf) full/half/quarter page	400 € / 200 € / 100 €
sponsoring of Coffee Break, Meet&Greet, Lunch&Learn, or Student Evening	from 100 €
travel support for students	from 100 €
flyers into the conference bag	100 €
logo on webpage (incl. weblink)	150 €

Besides the full spectrum of scientific topics of geophysics we also expect a wide variety of marine geophysical contributions.

Focus themes are

- **Geohazards (Mo)**
- **Renewable Energy - Onshore und Offshore (Tu)**
- **Geophysics of Polar Regions (Wed)**
- **Rift- und Ridge Systems (Th)**

DGG Colloquium: **Mineral Exploration Geophysics (Wed)**

Contribute to the success of
our conference by your
participation and support
